

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

SCIENTIFIC BOOKS

THE CONTROL OF HUNGER IN HEALTH AND DISEASE

By ANTON JULIUS CARLSON, *Professor of Physiology at the University of Chicago.*

A summary of the work of the stomach, with special reference to hunger and appetite, carried on at the Hull Physiological Laboratory, at the University of Chicago during the last four years. 219 pages. Price \$2.00 net.

University of Chicago Press, Chicago, Ill.

STATE SANITATION

By GEORGE CHANDLER WHIPPLE, *Professor of Sanitary Engineering at Harvard University. Member of the Public Health Council, Massachusetts State Department of Health.*

The primary object of this book is to set forth the past work of the Massachusetts State Board of Health, so that it may be known by the people of the present generation. 377 pages.

The Harvard University Press, Cambridge, Mass.

PRINCIPLES OF OCEAN TRANSPORTATION

By EMORY R. JOHNSON, Ph.D., Sc.D., *Professor of Transportation and Commerce of the University of Pennsylvania*, and GROVER C. HUEBNER, Ph.D., *Assistant Professor of Transportation and Commerce at the University of Pennsylvania.*

This book embodies all the principal changes that have recently occurred in methods of ocean transportation throughout the world. Illustrated with half-tones, maps and diagrams. 513 pages.

D. Appleton and Company, New York City

DESCRIPTIVE MINERALOGY

By WILLIAM SHIERLEY BAYLEY, *Professor of Geology at the University of Illinois*

A text-book for college classes, designed to give the student a comprehensive view of modern mineralogy, rather than a detailed knowledge of many minerals. 268 illustrations. 542 pages.

D. Appleton and Company, New York City

INORGANIC CHEMISTRY

By ALEXANDER SMITH, *Professor of Chemistry in Columbia University.*

A thorough treatise of inorganic chemistry for students beginning this study in college, university or professional schools. Third edition. 925 pages.

The Century Co., New York City

SOIL PHYSICS AND MANAGEMENT

By J. G. MOSIER, B.S., *Professor of Soil Physics, University of Illinois*, and A. F. GUSTAFSON, M.S., *Assistant Professor of Soil Physics, University of Illinois.*

The publication of this book fulfils three purposes: First, a text-book for agricultural students; second, a reference book for the practical farmer; and, third, an aid to the landowner who desires information in the management of his land. 202 illustrations. 442 pages.

J. B. Lippincott and Company, Philadelphia, Pa.

FIELD BOOK OF INSECTS

By FRANK E. LUTZ, *Associate Curator, Department of Invertebrate Zoology, American Museum of Natural History*

A popular treatise of the more common insects, with special reference to those of the Northeastern United States. 800 illustrations. 409 pages. Price, \$2.50 net.

J. P. Putnam's Sons, New York City

A TEXT-BOOK OF PRECIOUS STONES

By FRANK B. WADE, B.S., *Head of the Department of Chemistry, Shortridge High School, Indianapolis, Ind.*

This book presents, in as natural an order as possible, the fundamental principles and methods in use for identifying precious stones. 318 pages. Price, \$2.00 net.

J. P. Putnam's Sons, New York

COMPARATIVE ANATOMY OF VERTEBRATES

By J. S. KINGSLEY, *Professor of Zoology at the University of Illinois*

A text-book of comparative anatomy, laying special emphasis on the embryological side of the study. Second edition. 406 illustrations. 449 pages. Price, \$2.00 net.

P. Blakiston's Son and Company, Philadelphia, Pa.

TOPOGRAPHY AND STRATEGY IN THE WAR

By DOUGLAS WILSON JOHNSON, *Associate Professor of Physiology, Columbia University.*

This book treats the relationship between inanimate nature and the science of war and gives a picture of the different war fronts in order that the military campaigns of the war may be followed with greater ease. 211 pages. \$1.75 net.

Henry Holt & Co., New York

GENERAL ZOOLOGY

By A. S. PEARSE, *Associate Professor in the University of Wisconsin*

This book has been written to be read by students of eighteen to twenty years of age. With this idea in view both the illustrations and text have been prepared more in the style of a natural history than of an anatomy. 366 pages.

Henry Holt & Co., New York

HISTORY OF MEDICINE

By FIELDING H. GARRISON, *Principal Assistant Librarian, Surgeon General's Office, Washington, D. C.*

This volume has been written with a definite intention of stimulating the student to do his own thinking and research, by interesting him in the subject from the start. 905 pages. Cloth \$6.50 net.

W. B. Saunders Co., Philadelphia, Pa.

A SHORT HISTORY OF SCIENCE

By W. T. SEDGWICK and H. W. TYLER of the *Massachusetts Institute of Technology.*

This volume seeks to furnish the student and the general reader with a concise account of the origin of our scientific knowledge and scientific methods. 474 pages. Price \$2.50 net.

The Macmillan Co., New York

EVERYMAN'S CHEMISTRY

By ELLWOOD HENDRICK, New York City.

This book aims to give to the average man a general realization of the tremendous importance of chemistry and its application in actual life. 373 pages.

Harper & Brothers, New York

Sargent's Handbook of American Private Schools

A Standard Annual of Reference

Of utmost importance to all interested in Secondary Education. Describes critically and discriminatingly the Private Schools, their merits and demerits, each under its appropriate classification.

Comparative Tables give the relative cost, size, age, special features, etc.

Introductory Chapters tell in a general way of interesting developments in the educational year,—“Educational Reconstruction in Other Warring Countries”, “Experimental and Modern Schools”, “Recent Development of the Country Day School”, “Recent Educational Literature”, “The Year's Advance in Education”, “War Activities of the Schools”, “History of Military Education”, etc.

4th edition, 1918, revised and enlarged, 722 pages, \$2.50.

PORTER E. SARGENT
50 Congress St., Boston, Mass.

Archives of Psychology

- No. 27. A Statistical Study of Eminent Women. Cora Sutton Castle. Pp. 90. 80 cents; cloth, \$1.05.
No. 28. The Mental Capacity of the American Negro. Marion J. Mayo. Pp. 70. 60 cents; cloth, 85 cents.
No. 29. Experimental Studies in Judgment. H. L. Hollingworth. Pp. 119. \$1.25; cloth, \$1.50.
No. 30. The Psychological Researches of James McKeen Cattell; A Review by Some of his Pupils. Pp. 101. \$1.00; cloth, \$1.25.
No. 31. Fatigue and Its Effect upon Control. Isaac Emory Ash. Pp. 61. 60 cents; cloth, 85 cents.
No. 32. The Transfer Effects of Practice in Cancellation Tests. Melvin Albert Martin. Pp. 68. 60 cents; cloth 85 cents.
No. 33. The Intellectual Status of Children Who are Public Charges. J. L. Stenquist, E. L. Thorndike and M. R. Trabue. Pp. 52. 50 cents; cloth, 75 cents.
No. 34. The Relation of Quickness of Learning to Retentiveness. Darwin Oliver Lyon. Pp. 58. 50 cents; cloth 75 cents.
No. 35. The Overcoming of Distraction and Other Resistances. John J. B. Morgan. Pp. 78. 75 cents; cloth, \$1.

SCHOOL AND SOCIETY

A weekly journal covering the field of education in relation to the problems of American democracy

Edited by J. McKEEN CATTELL

SATURDAY, AUGUST 24, 1918.

The Obligations of Intelligence in the Present Crisis: R. M. Ogden.

The Need to define anew the Values of Latin: M. E. Blanchard. Essentials in Geography: James F. Chamberlain.

Educational Events:

The British Universities and the British Empire; The Children's Bureau on the Care of Infants; Married Teachers; Colleges qualify for Army Training; President Wilson on the Schools in War-time.

Educational Notes and News.

Discussion and Correspondence:

The Normal School in American Education: J. Theo. Arntz, Jr.

Quotations:

The English Training College for Teachers.

San Francisco Lectures on Immigration.

Educational Research and Statistics:

Measuring Failure: Elizabeth Cleveland.

Societies and Meetings:

The National Education Association.

SATURDAY, AUGUST 31, 1918.

Education and Our Democracy: W. C. Bagley.

Keeping School without Fire: Isabel Kimball Whiting.

Educational Events:

National Rural Teachers' Reading Circle; University Extension in Massachusetts; The Students Army Training Corps; Training in Scientific and Technical Subjects: The Work of the National Education Association.

Educational Notes and News.

Discussion and Correspondence:

College Courses and the Teacher Supply under War Conditions: Frederick H. Blodgett. The Education of Children living on Barges: Arthur E. Albrecht.

Quotations:

Ventilation and School Hygiene

Books and Literature:

Ingis on the Principles of Secondary Education: Dr. I. L. Kandel.

Educational Research and Statistics:

A Study of the Mental and Physical Characteristics of the Chinese: W. H. Pyle.

Societies and Meetings:

The National Education Association.

SATURDAY, SEPTEMBER 7, 1918.

Training for Citizenship through Service: C. A. Prosser.

Physical Education in the High School in the Present Emergency: W. S. Smith.

Educational Events:

The Harvard Bureau of Educational Guidance; The University of Iowa Hospital for Crippled Children; War Courses at Northwestern University; The Educational Budget for New York City.

Educational Notes and News

Discussion and Correspondence:

Shall we continue to advocate Reforms by False Arguments? Paul Monroe

Quotations:

Economizing in Text-books.

Educational Plank of the Resolutions on Reconstruction of the British Labor Party.

Educational Research and Statistics:

The Derivation of Reasoning Tests in Arithmetic: Walter S. Monroe.

Societies and Meetings:

The National Education Association.

SATURDAY, SEPTEMBER 14, 1918.

Training for National Service: Thomas E. Finegan.

The Basis of Education in a Democracy: W. L. Carr.

Educational Events:

Europe's Educational Message to America; The Pennsylvania State Educational Association; The Students' Army Training Corps; Superintendent Mortenson of Chicago.

Educational Notes and News

Discussion and Correspondence:

The Installation Address of the President of the University of North Dakota: John M. Gillette.

The Democracy Questionnaire.

Educational Research and Statistics:

The Derivation of Reasoning Tests in Arithmetic: Walter S. Monroe.

Societies and Meetings:

The National Education Association.

R-S The Original Mechanically Operated Side by Side Valve Motor

Time and again, during the past nine years we have demonstrated that the R-S Motor with its integral cams and gears of specially treated Vanadium Steel, its large cooling flanges, its long stroke, its mechanically operated Valves is the most reliable, flexible, powerful and durable Motor that stands the test of time. It triumphs over the worst road conditions and survives the most gruelling tests, yet remains fresh and sweet through it all—never taxed to its utmost, but always with plenty of power on which to draw.

We are the originators of the Mechanically Operated Side by Side Valve Motor and therefore eight years in advance of all others. The R-S is not an experiment at the expense of the rider.

With such a motor to start with is there any wonder that the other features of the R-S are in keeping with the recognized superiority of the R-S Motors.

Write for catalogue and dealer's proposition.

511 Water Street

READING, PA.

The Scientific Monthly

Entered as second-class matter October 1, 1915, at the post-office of Lancaster, Pennsylvania,
under the Act of March 3, 1879

CONTENTS OF THE AUGUST NUMBER

The Mechanism of Light Emission. Professor E. P. Lewis.
The Status of Sealing in the Subantarctic Atlantic. Robert Cushman Murphy.
Principles and Problems of Fish Culture in Ponds. Dr. R. E. Coker.
The Engineering Profession Fifty Years Hence. Dr. J. A. L. Waddell.
Research and the Industries. Dr. P. G. Nutting.
The Tutored Farmer. Professor W. O. Hedrick.
Bird Migration in its International Bearing. Joseph Grinnell.
The Home of the Sovereign Weed. Professor E. M. East.
Vitamines and Nutrition. Dr. H. Steenbock.
The Progress of Science:
One Hundred Years of the American Journal of Science; Hours, Fatigue and Health in British Munition Factories; Scientific Items.

CONTENTS OF THE SEPTEMBER NUMBER

The Teaching of the History of Science. George Sarton.
Baker on the Microscope and the Polype. Professor Lorande Loss Woodruff.
On the History of the Problem of Separating a Number into its Prime Factors. Professor D. N. Lehmer.
Plant Pathology To-day. C. L. Shear and Neil E. Stevens.
The Seasonal Distribution of Swine Breeding. Dr. Raymond Pearl.
The Marriage of Museums. Lewis Mumford.
What is Sociology? Dr. F. Stuart Chapin.
Paleontological Evidences of the Antiquity of Disease. Professor Roy L. Moodie.
The Progress of Science:
The Launching of the Langley; Armor adapted to Modern Warfare; Scientific Items.

Bausch^{and} Lomb Balopticon

THE PERFECT STEREOPTICON

Invaluable for instruction and lecture work—an ideal projection lantern for class room, laboratory or auditorium. Models for either lantern slides or opaque objects (photo prints, post cards, specimens, etc.) or both. Equipped with the new gas-filled mazda lamp, absolutely automatic. More complete models for microscopical and all known forms of optical projections.

Because of the demands made upon our resources for some of the government's most important military needs, we are unable to make Balopticon deliveries for the present. While proud to be of service in this world crisis, we shall expect to serve our other patrons even more efficiently than before, when the world is again at peace.

Bausch & Lomb Optical Co.

550 St. Paul Street Rochester, N. Y.

Leading American Makers of Microscopes, Projection Apparatus (Balopticons), Photographic and Ophthalmic Lenses, Binoculars, Range Finders, Gun Sights, Searchlight Reflectors and Other High-Grade Optical Products

W. Watson & Sons, Ltd.

BRITISH MADE

STUDENTS MICROSCOPES

The "Praxis" Stand is the Student's model par excellence. Made throughout with the same accuracy

and finish as on Watson's highest priced Stands.

A few special points are:—Standardization so that additional movements may be fitted as required. Lever fine adjustment. Constructed of two solid castings and indestructible. All parts are slotted and sprung to compensate for wear.

Price for Stand only \$18.90.

Catalogue of Microscopes and Accessories for all purposes gratis on request from
